

September 27, 2023

Dear Parents,

As you know, all of us are concerned for the safety and well being of every member of our community but especially our children. I ask you to please read this letter carefully, as we work together to keep our parking lot safe for all of us.

PLEASE park in a designated spot and walk your child to the schoolyard. DO NOT park in front of the cones or in front of the garages. The garage needs to be available for our priests.

All cars should enter at the corner of 175th Street and 75th Avenue. Parents or guardians should park their car. This will alleviate the stress and worry of cars driving up and simply dropping students off as other children and parents are walking through the lot.

***Please do not stop your car in front of the cones at any time.* If any parent has a physical reason or impairment that prevents them from following this procedure, please let me know and we will make alternate arrangements so that all are comfortable and safe.**

Please follow these procedures so that our year can be safe and stress free for all of us. The safety of our children and the entire HFCA community is the priority for everyone. Thank you all for your help and cooperation.

Ms. Kelly
