

Dear Second Grade Students,

I hope you have a fun and safe summer. Here is the work to do over the summer to help you review and be your best in September!

Please continue reading your favorite books. Please choose one book that you read over the summer and complete the attached book report for each book. They may be done on looseleaf.

Please complete the attached summer fun writing assignment. This may be done on looseleaf.

Please complete the attached math assignments. Also continue practicing counting 0-100 and by 5s and 10s.

Please continue to use I-ready throughout the summer. Please complete eight hours TOTAL for the summer. Four hours of reading and four hours of math should be completed by September. Please complete lessons under "my path".

Please enjoy your summer with your families!

Summer Book Report

Title: _____

Author: _____

Main Characters: _____

In two sentences, please tell me your favorite part of this book.

In two sentences, please tell me who your favorite character is and why.

Time to Draw! Please choose your favorite character, scene, or recreate the cover! You choose what you would like to draw.

Please describe your favorite memory of your summer. This can be done in three to five sentences using these questions as a guide.

What was your favorite memory of the summer of 2023?

What important people were a part of this memory?

Where did this memory take place?

Please draw a picture that best describes this fun memory!

Please complete the following word problems.

1. Jake and Leo were playing soccer on the same team, The Royals. Jake scored four goals and Leo also scored four goals. How many goals did Jake and Leo score for the Royals team?

2. Maddie, La'Nya and Alexandra made bracelets one rainy afternoon. Maddie made three blue, La'Nya made four green and Alexandra made three yellow bracelets. How many bracelets in all did the girls make?

3. Matteo and Edwin were going to the store to buy Pokemon cards. Matteo bought five packs and Edwin bought six packs. How many packs of Pokemon cards did they buy in total?

4. Sahnary brought 10 cupcakes to school one day. Emma and Luzmi had two each. How many cupcakes did Sahnary have left?

5. Janiah read ten books over the summer. Sadie read six books and three magazines. How many books in all did the girls read?
